Assisted Living Personal Service Plans

Personal service plans vary from individual to individual and are based on a healthcare review performed by our associates to determine what personal assistance or medical care is requested or required. The healthcare review is performed prior to moving in and at regular intervals after move-in.

Traditional Care \$1,140/month

For residents who are primarily independent but may benefit from occasional cueing and reminders and who require little or no physical assistance with activities of daily living. An example would be a resident who needs reminders only with respect to one or more activities of daily living.

Traditional Care I \$2,250/month

For residents who are no longer fully independent but whose care needs consist primarily of more frequent cueing and reminders and who require little or no physical assistance with activities of daily living. An example would be a resident who needs reminders with respect to one or more activities of daily living, as well as with respect to mealtimes and activities.

Traditional Care II \$3,450/month

For residents whose care needs consist primarily of a moderate level of physical assistance with activities of daily living. An example would be a resident who needs some physical assistance with bathing, some aspects of grooming, dressing and continence management.

Traditional Care III \$4,950/month

For residents who require a substantial amount of physical assistance with some activities of daily living due either to care needs or behaviors. Examples would be a resident requiring the assistance of two community associates for mobility and transfer or a resident requiring substantial or total physical assistance for dining, bathing and dressing, as well as moderate assistance with mobility, continence and grooming.

Traditional Care IV \$6,450/month

For residents who have extensive needs, such as a need for total care with one or several activities of daily living or a substantial amount of physical assistance warranted on a daily basis. Also, a resident using a mechanical or electric lift for transfers on an ongoing basis would be on Level IV at a minimum.

Traditional Care V \$7,950/month

For residents who need total assistance with all aspects of care, including assistance with dining.

Medication Services

Traditional Medication Management I \$990/month

Assistance with medication up to two times per day.

Traditional Medication Management II \$1,140/month

Assistance with medication and/or any administration of medications—using either method, not more than three times per day.

Traditional Medication Management III \$1,440/month

Assistance with medication and/or any administration of medications four or more times per day.

Medication management is overseen by our trained nursing associates. Please see Disclosure for further information.

Continence Management Package I \$360/month

Continence Management Package II \$510/month

Assisted Living Coordination Fee

\$5,000 per person

**Please note that for administrative purposes, your monthly billing statement will reflect a daily rate for all services. Rates listed above are based on a 30-day month.*
